CO2 and CO4 Evaluation Finished Project Report Spring/Summer/Fall 2020-2021

Project Title: Online Book Store
Section: H

Student Name	Student Id
Tahmeed Mahbub	18-38743-3
S.M. Tarek Aziz	18-38182-2
MD Shahadul Islam	18-38816-3

Online Book Store

Project Description:

Registration: Users can use it by registering them. After successfully registering them, he/she can login using valid information (Username and password). It will be checked from database whether his/her credentials are right or wrong.

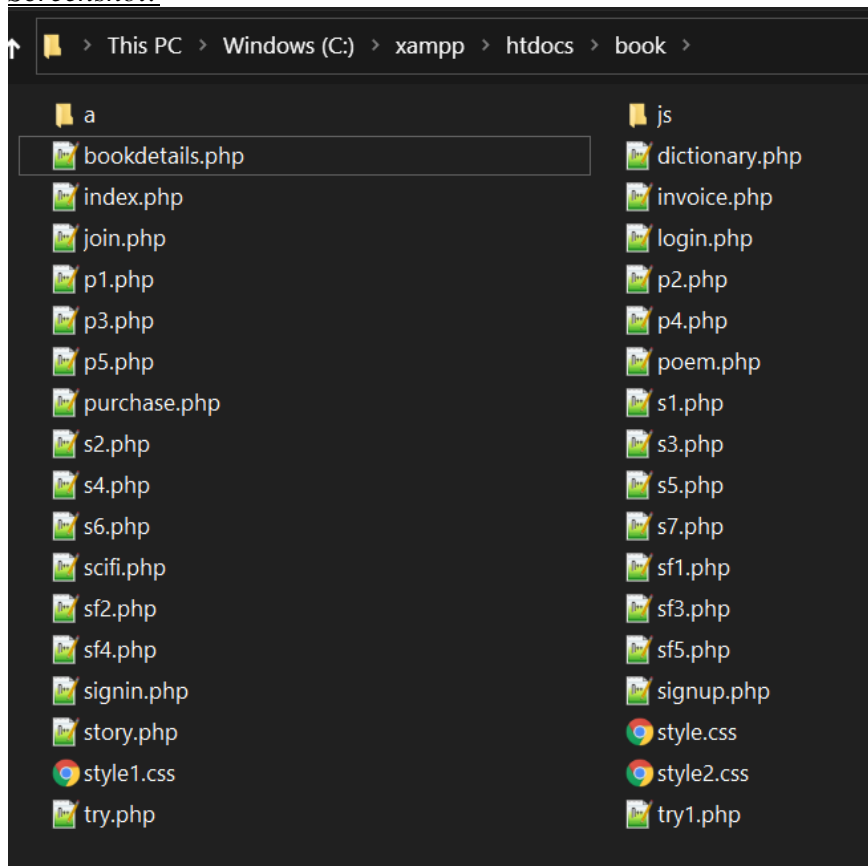

User's Accessibility: User can see many varieties of book categories. There will be showcasing books. So that, user can find as he/she wants to read. He/she can also see the book details. So that, he will get a prior knowledge before ordering any books. After that he/she can also see the author's details. That's how reader can get the perspective of the writer's posture. We also have a part where all books will be sorted as price low to high. There will be a review & rating option where customer can review the book. So that, new book lovers can easily get an idea. And there is the most important part name contact. Through this section, customer can contact with us.

Project Folder Structure:

Our Project Location is: `C:\xampp\htdocs\book`

In this folder directory we have all our codes. We did our CSS in `style.css` at the same directory. As well as we have all our photos in folder `a`, which works like an `asset` of this website. We will attach screenshot of our folder.

Screenshot:

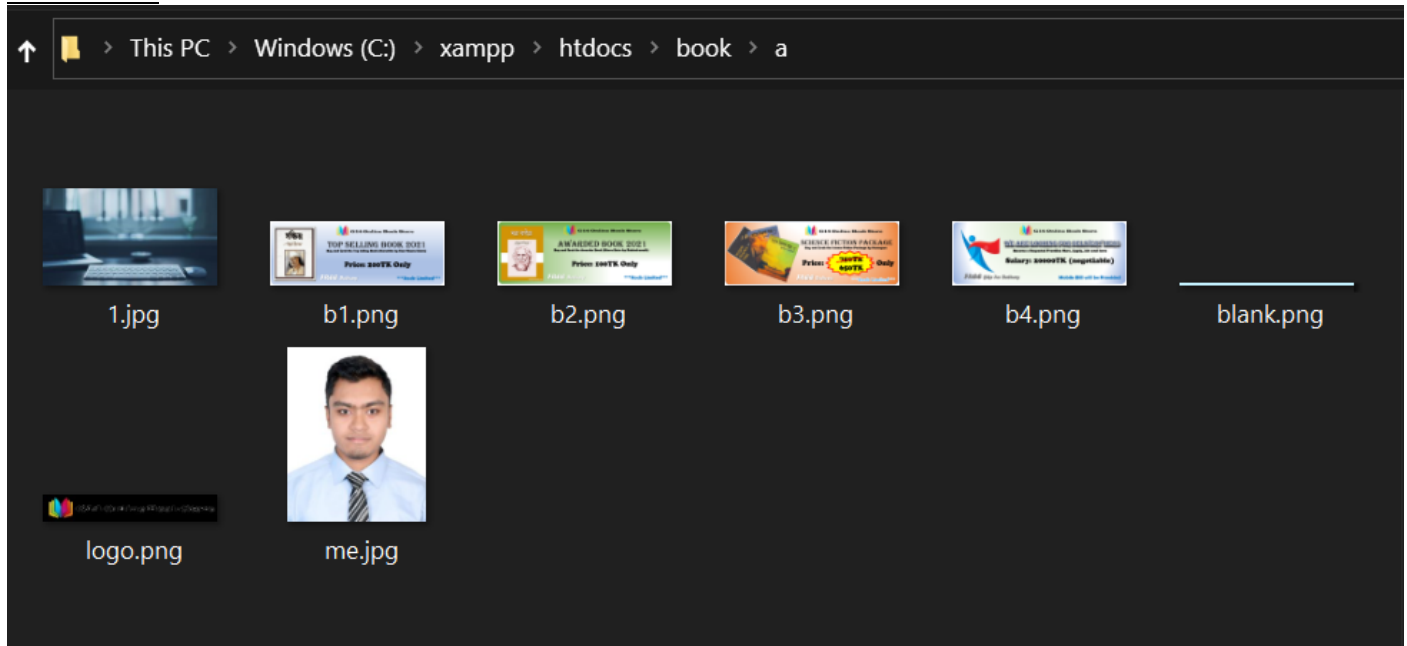

Online Book Store

Our Asset Location is: **C:\xampp\htdocs\book***a*

*In this folder directory we have all our photos, which works like an **asset** of this website. We will attach screenshot of our folder.*

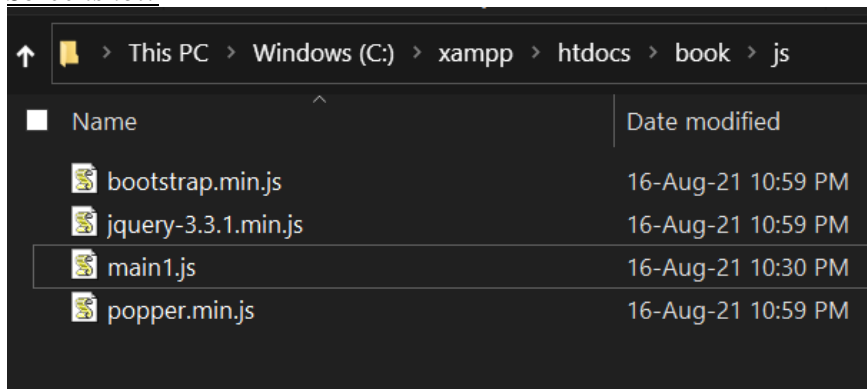

Screenshot:

Our Asset Location is: **C:\xampp\htdocs\book***js*

In this folder directory we store all our JavaScript.

Screenshot:

Online Book Store

Core Modules of the Project:

Our THREE of CORE modules are: *index.php*, *s1.php*, *style.css*
